

# Sestina Poetry

man is not meant for **flight**  
they always end up **plummeting**  
it seems their goal is **falling**  
it's a good thing theres a **parachute**  
they will never go **up**  
man will never end up **flying**

mans worst idea is **flying**  
man will never end up in **flight**  
their goal is not to go **up**  
they cant do anything but end up **plummeting**  
it's a good thing leonardo made the **parachute**  
it's a good thing the parachute prevents them from **falling**

they always end up **falling**  
they never succses at **flying**  
they will always need a **parachute**  
ill laugh if they end up in **flight**  
it seems there goal is **plummeting**  
they want to but sadly do not go **up**

its not the movie **up**  
their always **falling**  
their best choice is **plummeting**  
mans goal is not **flying**  
they should never have thought **of flight**  
they really need a **parachute**

their best choice is a **parachute**  
the worst goal is going **up**  
the worst goal is **flight**  
the goal is **falling**  
it is not **flying**  
but always **plummeting**

they want to end up **plummeting**  
with a **parachute**  
and not **flying**  
and not going **up**  
but always **falling**  
and not in **flight**

they always end up **plummeting** and never going **up**  
they always need a **parachute** because there always **falling**  
and never **flying** they should give up on **flight**
