

i got my food and it was **hot**
after I had to **run** to the bank
The teller made **laugh**
after words I saw a very **cute** puppy
sitting out in the **cold**
his little brown, worm eyes was all I could see

come in the water is **worm**
but don't be alarmed it may be **hot**
and my soul could be **cold**
but u don't have to **run**
this **cute** face can hid it all
at the end of the night we can all **laugh**

come on give me a **laugh**
we can cuddle and be **worm**
we can be the **cute**
Couple that everybody wants to be
even on that **hot** nasty day
there are no needs to **run**
because leving me behind would be **cold**

I look in your eyes all I see is the **cold**
You smirk and give me a little **laugh**
All I would like to do is **run**
My insids are soo **worm**
All I think about is the **hot** summer
And to be that **cute** couple

I love u because your **cute**
Even though it may be **cold** outside
The tuch to your body is still **hot**
And u still make me **laugh**
Even though I am only **worm**
Ur words make my hart **run**

Down the streat as fast as I **run**
The word **cute** makes me think of you
I begin to feel **worm** throughout my body
My fingers are ice **cold**
The sound of your **laugh** hurts my hart
and I am missing the **hot** touch of the sun

all I what to do is **run** far away away from the **cold**
only if your **cute** and your know how to make me **laugh**
and the tuch of your **worm** hands that make me a little more **hot**
